

Kingseed Kennel Puppy Contract

I have enclosed a deposit of \$200.00 for a puppy from Kingseed Kennels. I was informed that my deposit is non-refundable. (Initials) The balance will be paid when the puppy is picked up. Kingseed Kennels will notify me within 2 days of a litter being whelped and I will be informed of the number of pups, sex and color. If I choose not to get the available pup when I am contacted I may apply my deposit the next litter. I understand I will be given a pick up Date and Time when either I or someone in my place must be present to pick up my puppy. If I cannot make my pick up time or send someone in my place, I will forfeit my place in the picking order. Any pup left after the assigned pick up date will be subject to a \$25 per day boarding fee. If I need my pup shipped, all expenses will be my responsibility. This commonly includes a health certificate, a crate and shipping charges.

My puppy will be de-wormed at 2, 4 and 6 weeks, be up to date on vaccinations and will have dewclaws removed. My pup will be introduced to a crate, birds, water, gun fire and will be well socialized.

Kingseed Kennel – Health Guarantee

All Kingseed puppies come with a 26 month hip, elbow and eye guarantee. OFA will be the sole authority for determining hereditary (not caused by injury or being overweight) hip and elbow dysplasia. Genetic eye problems will be determined by a board certified K9 Ophthalmologist. All dogs will need to be x-rayed and have x-rays sent to OFA between the ages of 24 and 26 months. Eyes must be examined and certified by a board certified canine Ophthalmologist between 2 and 26 months of age.

In order for this guarantee to be honored:

- You must use the word Kingseed as a prefix to your dogs registered name. For example “Kingseed’s Motor City Bad Boy” or Kingseed’s Sammy Girl”
- X-ray requirements must be met and proof of OFA results must be provided.
- Eyes C.E.R.F. and proof of results provided.
- The dog must not have been bred or sold prior to x-rays or eye exam.
- If your dog is going to be replaced due to a defect covered by this guarantee we do not require that you return the original puppy but you must provide proof that your dog has been neutered or spayed. This should include a microchip number.

If the above requirements are met and a problem does exist, Kingseed will replace your dog with a pup from a like breeding. If you choose to get a pup from a more expensive breeding, you will pay the cost difference between the two pups.

Please print legibly (If I can’t read it I can’t get back to you)
