

# BrewerDoodles Puppy Guarantee and Contract

Parents: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

We are so happy you chose one of our puppies! We hope that he/she becomes your family's beloved friend for many years to come! With proper care and attention, the chances are high that you and your pup will do very well together, but we also want you to have the peace of mind that comes from knowing that we are here to help in the case that any possible problems might arise. Here are the details of our guarantee, and the spay/neuter contract.

- \* We guarantee that your puppy is in a good state of health when he or she leaves to their new home. It will already have had standard vaccinations and de-worming treatment appropriate for its age.
- \* You are encouraged though, to take him or her to your vet within the first 48 hrs of receiving him/her. If your vet should find any issues with your puppy, we ask that you contact us immediately so that we can resolve it in the correct way. We will need contact info for your vet and a certified letter from him describing the issue with your puppy.
- \* If your puppy is not found to be in a good state of health in any way, you may return him/her to us immediately for an exchange if available, or so we may treat the problem through our vet.
- \* In order for any of these points of this guarantee to be valid, you will be required to provide appropriate continued care (including medical and health care, exercise, proper diet and nutrition, etc), for your puppy during the duration of its life. Failure to provide proper care will nullify and make void this guarantee.

\* Your puppy is guaranteed against major genetic defects for the first 2 yrs of its life. We have selectively bred your puppy from excellent lines, done necessary testing on his/her parents, but it is impossible to entirely ensure that no puppy will ever have any health problems. If you find major genetic health problems in your puppy in the first 2 yrs of its life, you will have the option of returning the puppy to us, with acceptable proof from your vet of the issue, and we will work with you to replace him/her with a new puppy of comparable breeding. Problems arising from environmental conditions or lack of care are not covered by this guarantee.

\* Buyer will limit the exposure of this puppy to other dogs and to high traffic areas (such as dog parks, pet stores, public streets, etc), until the puppy is at least 16 weeks old and/or has been given its last puppy vaccination.

\* This puppy will live as a member of Buyer's family and shall be allowed to enjoy time with the family as well as proper time to exercise outdoors. The dog may be placed in an appropriate outdoor yard (fence or electric fence, with available water and shelter) when the hours and weather are suitable, but shall not be neglected, left out or kenneled on a 24hr basis.

Again, hopefully none of these points of the guarantee will ever be necessary, and the biggest factor in avoiding problems is providing excellent care and attention to your new addition. When this happens, problems are much rarer. When issues do arise, we strive to be as helpful, reasonable, and easy to work with as possible.

We are always available if you have any questions or need any help or advice with your new puppy. We also love getting new pictures of our puppies as they grow, and would love to use them on our website and Facebook page, with permission!
