

EQUIPMENT CHECKLIST

REQUIRED GEAR

- Softball Bat:** All players are required to use an aluminum softball bat. Be sure to purchase a length of bat best suited for your child's height. Bats must be ASA or NSA approved, with the exception of Tball bats, which are allowed for 6U. Baseball bats are **not** permitted.
- Helmet with Faceguard:** All players are required to wear a helmet with an attached faceguard when batting.
- Softball/sliding pants:** These are a requirement for age groups 10U through 18U. Wearing sliding pants protects a batter's legs and helps to prevent slide rash in the event of sliding into a base.
- Cleats:** All players in age groups 10U and up are required to wear cleats on the field. However, they are recommended for 8U as well. No specific color or brand is necessary. Metal spikes are **not** permitted.
- Softball mask:** A fielding mask is required at every age level. The mask is for your player's safety.
- Glove:** All players are required to have a glove/mitt. Be sure to get a glove that fits your child's hand properly.

NON-REQUIRED GEAR

- Batting Gloves:** Batting gloves can assist with a better grip on a bat.
- Bat Bag:** This item is highly recommended to keep your player's gear all in one place.
